My name is Christopher Gallo and I live at 15529 Marsh Overlook Dr. I'm reaching out in regards to continued reckless, driving behavior at the intersection of marsh overlook Drive and Rippon Boulevard. In addition to the speeding, disregard for stop signs. There has been an uptick and vehicles doing donuts, burnouts at that intersection. These events are happening in broad daylight while people are walking. You can look at the tire marks and see how incredibly close they are coming to the walking path. My wife goes for walks with the kids after school and has witnessed at least one of these events. I have brought this to the attention of Prince William County police and the department for Prince William county that handles traffic calming measures. My main goal here is to avoid a tragedy. My fear is that one of these inexperienced drivers is going to lose control and kill someone. Most likely a pedestrian on a walking path or possibly lose control into the front yard of a neighboring home. I am attaching the videos that I sent to Prince William county my number is 240-988-2743. I have some ideas I'm when it comes to traffic calming measures and I am glad to share those with you, I feel obligated to bring this to your attention the videos will be sent in a corresponding email. Thank you so much.
